Overview

Our main objective is to deliver engineering services and projects locally and internationally.

We are a 100% black owned and managed company that adheres to our countries strategic move

to advance women empowerment by continuously creating opportunities, intellectual empowerment and career development for women.

Over the years, we have successfully achieved strategic partnerships both locally and internationally across

a broad array of services and industries segments we operate in.

With over 40 local technical associates, no job is too big for us.

Our Mission

Our mission is to provide the highest quality engineering services and noteworthy value to our clients both nationally and internationally.

Our Vision

Our vision is to be the leading black owned and managed Engineering Services company of choice in the southern hemisphere.
